- Backend API Development (Node.js, NestJS, Laravel)
- CMS (Sanity, WordPress)
- Full Stack Application. Development & Integration
- Responsive & Accessible Interface Design
- UI Prototyping & Collaboration (Figma), Version Control & Team Workflow Tools (Git, Jira)
- Cross-Functional Team Collaboration
- Clear & Effective Communication
- Rapid Learning & Adaptability
- Mentorship & Knowledge Sharing
- Problem Solving & Critical Thinking

## LANGUAGES

- Albanian: Native
- English: Fluent

## WORK EXPERIENCE

Povio

JUL 2022 - PRESENT

Javascript Engineer

- Led frontend development for Room, a modern e-commerce site for office pods - built from Figma using Next.js, TypeScript, GraphQL, Tailwind, Stripe, and Saleor.
- Built an internal dashboard for Pump, Arnold Schwarzenegger's fitness platform, using a custom React implementation.
- Created Coursly, a course creation tool that turns documents into lessons - built with Next.js, Tailwind, and the power of AI.
- For multiple other projects, I delivered clean, scalable UIs from Figma, implemented custom design systems, and ensured performance through best practices, caching strategies, and optimized rendering.

Farbenloewe

MAY 2021 - JUL2022

Team Lead - Full Stack Developer

- Developed a ticket management system (like Zendesk) integrating multiple sources (such as Amazon, eBay) with enriched order data to streamline customer support agent workflows. (Vue + Node.js)
- Built tools to track shipment statuses (from DHL, DPD) and performance dashboards covering agents, orders, and revenue.
- Led outsourcing projects end-to-end, including multiple custom WordPress sites (design to deployment) and a social platform for Nextgents (with Vue + Laravel), featuring multi-user dashboards and content-sharing features.
- Took ownership of project planning, delivery timelines, and client communication.

Head

SEP 2019 - MAY 2021

Web Developer

- Developed custom WordPress themes for digital agencies, turning designs into performant, reusable websites using ACF.
- Ensured high performance, Pagespeed scores, responsive design, and cross-browser compatibility through thorough testing.
- Delivered and maintained projects such as Koehler24, Bioase Online, Planq Dortmund, Atlas Curatio, Ortner Dortmund, HeimatGlück and much more.
- Contributed to Laravel apps and CMS-based projects beyond WordPress.
